for logistics

Chicago, IL, October 12 2023

Achieve clarity and alignment by understanding team members' priorities and tasks and communicating expectations.

Match your leadership approach to the corresponding needs of an individual for a specific task.

Avoid underleading and overleading by recognizing that a one-size-fits-all approach to leadership is ineffective.

Respond to change by maintaining an awareness of team members' changing circumstances and performance needs.

Build trust over time by correctly diagnosing a situation, adapting to others' needs and leveraging open, two-way communication.
